**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

The Honorable Dennis Daugaard
Governor of South Dakota

and

Board of Directors
South Dakota Building Authority

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the South Dakota Building Authority (SDBA), a component unit of the State of South Dakota, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the SDBA's basic financial statements, and have issued our report thereon dated October 1, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the SDBA's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the SDBA's internal control. Accordingly, we do not express an opinion on the effectiveness of the SDBA's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any

deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the SDBA's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, and contracts, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. As required by South Dakota Codified Law 4-11-11, this report is a matter of public record and its distribution is not limited.

INDEPENDENT AUDITOR'S REPORT

The Honorable Dennis Daugaard
Governor of South Dakota

and

Board of Directors
South Dakota Building Authority

Report on the Financial Statements

We have audited the accompanying financial statements of the South Dakota Building Authority (SDBA), a component unit of the State of South Dakota, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the SDBA's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting

estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the SDBA as of June 30, 2018, and the changes in its financial position and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the *Management's Discussion and Analysis* on pages 9–12 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the SDBA's basic financial statements. The Schedule of Cash and Investments, Schedule of Building Authority Fund Expenses, and Schedule of Projects Financed are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Schedule of Cash and Investments, Schedule of Building Authority Fund Expenses, and Schedule of Projects Financed are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Cash and Investments, Schedule of Building Authority Fund Expenses, and Schedule of Projects Financed are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The listing of the Board of the South Dakota Building Authority has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 1, 2018 on our consideration of the SDBA's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the SDBA's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the SDBA's internal control over financial reporting and compliance.

MANAGEMENT’S DISCUSSION AND ANALYSIS
June 30, 2018

This section of the South Dakota Building Authority’s (“the Authority”) annual financial report presents management’s discussion and analysis of the Authority’s financial performance during the fiscal year ended June 30, 2018 (FY 2018). This analysis should be read in conjunction with the Independent Auditor’s Report, financial statements, notes to the financial statements and supplementary information.

The Authority

The Authority is a component unit of the State of South Dakota. As such, the accompanying financial statements are included in the Comprehensive Annual Financial Report of the State of South Dakota. The purpose of the Authority is to build or otherwise provide facilities for use by the State. To finance such projects, the Authority is empowered to issue and sell bonds as the Legislature by law declares to be in the public interest. Amounts issued by the Authority shall not be deemed to constitute a debt of the State of South Dakota or any political subdivision thereof.

Concurrently with the issuance of bonds, the Authority executes leases or lease supplements with the board, department, office, commission, or agency of the State which will use and operate the facility.

The South Dakota Building Authority contracts with the South Dakota Health and Educational Facilities Authority for management services on an annual basis.

Ending net position	(\$ 11,953.2)	(\$ 10,398.2)	(\$ 1,555.0)	(15.0%)

Analysis:

For FY 2018, the Authority paid off the Series 2008 bonds in the amount of \$31.2 million and paid construction costs of \$19 million causing the actual cash held in the State Investment Council to significantly decrease in FY 2018. The decrease in net position of \$1.5 million was primarily due to the \$1.5 million difference in Construction in Progress put into use and the bonds payable recorded. The \$52.5 million decrease in Cash & Cash Equivalents was used to pay off \$31.2 million of the Series 2008 bonds and pay for construction payments. A significant portion of the \$46.3 million decrease in Bonds Payable was due to paying off \$31.2 million in Series 2008 bonds.

MANAGEMENT'S DISCUSSION AND ANALYSIS

June 30, 2018

(continued)

Debt Administration:

The Authority is authorized to issue revenue bonds, notes or other obligations on behalf of state institutions for the purpose of the constructing, equipping and improving of facilities or the refinancing of outstanding debt.

The Authority did not issue any new bonds in FY 2018.

The Authority paid at maturity bonds totaling \$44.4 million in FY 2018.

The Authority's bonds are rated AA+ by Standard and Poor's, Aa1 by Moody's Investor Service and AA+ by Fitch Rating.

More detailed information about the Authority's debt can be found in Note 5, Bonds Payable.

Overview:

Lease rental payments and interest income are the major sources of revenues for the Authority. The increase in average daily cash on hand held by the Authority compared to the prior year resulted in a increase in interest income on investments.

This report is presented to provide additional information regarding operations of the Authority and to meet the requirements of GASB Statement No. 34.

SOUTH DAKOTA BUILDING AUTHORITY

NOTES TO FINANCIAL STATEMENTS

Note 1. The Authority

The South Dakota Building Authority (“the Authority”) was created and organized by Chapter 5-12 of the South Dakota Codified Laws (the Act). The purposes of the Authority are to build and otherwise provide hospital, housing, penitentiary, administrative, classroom, dining hall, field house, parking, union building, library, recreational, laboratory, office and similar facilities for the use by the State. Amounts issued by the Authority shall not be deemed to constitute a debt of the State of South Dakota or any political subdivision thereof. The Authority is a component unit of the State of South Dakota. As such, the accompanying financial statements are included in the Comprehensive Annual Financial Report of the State of South Dakota.

The Authority is empowered under the Act to acquire, construct, complete, remodel, maintain and equip buildings and other facilities as the Legislature by law declares to be in the public interest. To finance such projects, the Authority is empowered to issue and sell bonds or other forms of indebtedness in such amount or amounts as the Authority may determine, to refund and refinance its indebtedness as often as is advantageous in the public interest to do so, to pledge any and all income of the Authority and any revenues derived from such facilities or any combination thereof, to secure the payment of such bonds and other forms of indebtedness and to redeem such bonds or indebtedness. The Authority may also issue interim notes to finance any of the projects or perform any of the duties authorized under the Act, including planning, architectural and engineering fees, acquisition of land and purchase of equipment.

Concurrently with the issuance of bonds, interim notes or other forms of indebtedness, the Authority executes leases or lease supplements of the related facilities and sites with the board, department, office, commission or agency of the State which will use and operate the facility.

The Authority performs the activities shown below.

Building Authority – Accounts for the lease rental receipts, debt service payments, service fees and disbursements necessary to conduct the day-to-day business of the Building Authority.

The South Dakota Building Authority contracts with the South Dakota Health and Educational Facilities Authority for management services on an annual basis.

Note 2. Summary of Significant Accounting Policies

Basis of Presentation: The Authority, as a component unit of the State of South Dakota, follows standards established by the Governmental Accounting Standards Board (GASB). Generally accepted accounting principles applicable to the Authority are generally those applicable to similar businesses in the private sector.

The Authority utilizes the accrual basis of accounting wherein revenues are recognized when earned and expenses are recognized when incurred. Other significant policies are:

Leases: Properties leased under long-term contracts are accounted for as financing transactions. The present value of aggregate future rentals is recorded as a receivable at the time the assets are turned over to State agencies. Principal received during construction is recorded as Amounts Held For Others until the project has been completed. Interest incurred during the construction of a project is funded currently by scheduled lease payments. Accordingly, such interest is recorded as an expense and the related finance income is recorded as revenue.

Fees, Charges and Other Income: Service and other fees are recorded as income when earned.

Reporting Entity: The accompanying financial statements include all the integral parts of the Authority's operations. The Authority believes that it has no oversight responsibility for any other agency which would require it to be included in the reporting entity.

Investments: The Authority participates in the investment pool managed by the South Dakota Investment Council. Under South Dakota Codified Law, the South Dakota Investment Council pools all participating monies for investment purposes and allocates all earnings of the investments back to the individual participating funds in the same ratio as the average daily cash balance of each participating fund bears to the average cash balance of the participating funds.

Investments are reported at fair value, which approximates market value, in accordance with GASB Statement No. 72. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Cash and Cash Equivalents: For purposes of reporting cash flows, the Authority defines cash and cash equivalents as investments with original maturities of ninety days or less and any participating funds in the State's internal investment pool held by the State Treasurer. The amount held in the State's internal investment pool is reported at fair value. The Authority essentially has on demand access to the entire amount of cash in the internal investment pool.

Restricted Net Position: The Tax Regulatory Agreements provide that certain funds be established to pay debt service payments, cost of issuance expenses and to pay project construction expenses. When both restricted and unrestricted resources are available for use, it is the Authority's policy to use restricted resources first, then unrestricted resources as they are needed. Restricted net position is composed of cash, assets and liabilities relating to bonds, such as amounts due from State, lease interest receivable, construction in progress, bonds payable, interest payable, amounts held for others, due to state agencies and arbitrage rebate payable. The total restricted net position, as of June 30, 2018, is as follows:

Restricted Net Position	<u>\$7,264,764</u>
-------------------------	--------------------

Revenue and Expense Recognition: Enterprise funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering items in connection with an enterprise fund's principal ongoing operations. The Authority records all revenues derived from administrative fees as operating revenues since these revenues relate to the principal activity of the Authority. Operating expenses include interest expense on bonds and administrative expenses necessary to perform the principal activity of the Authority. On the Statement of Cash Flows, activity associated with the construction of leased assets, including the associated debt and lease payments, is reported as cash flows from capital and related financing activities.

Deferred Outflows of Resources: Deferred outflows of resources represent a consumption of net position by the government that applies to a future period(s) and will not be recognized as an outflow of resources (expense/expenditure) until then.

Note 3. Cash and Investments Held by South Dakota Investment Council

Management of the State’s internal investment pool is the statutory responsibility of the South Dakota Investment Council. The investment policy and required risk disclosures for the State’s internal investment pool are presented in the South Dakota Investment Council Audit Report. Cost and fair value, which approximates market value, of cash and investments on June 30, 2018, consist of the following:

	<u>Carrying Value</u>	<u>Fair Value</u>
Cash and Investments managed by the South Dakota Investment Council	\$ 51,171,097	\$ 50,359,113

Custodial Credit Risk:

Custodial credit risk is the risk that in the event of a bank failure, the Authority’s deposits may not be returned to it. The Authority does not have a deposit policy for custodial credit risk. As of June 30, 2018, none of the Authority’s deposits were exposed to custodial credit risk.

Note 4. Amounts due from State

In accordance with the bond resolutions, the Authority has entered into leases with various boards and departments of the State of South Dakota on the facilities completed and those now in construction. These leases call for rentals which, in the aggregate, are sufficient to pay the principal and interest on the related bonds and any administrative costs of the Authority.

At such time as the lessees have paid rentals sufficient to cover the principal and administrative costs, the Authority will transfer all its rights, title and interest in the related facilities to the lessee.

The leases, which are for periods coinciding with the revenue bonds issued related to the various facilities, are subject to termination and cancellation in any year for which the Legislature of South Dakota fails to make an appropriation to pay the required rentals.

A summary of amounts due from State at June 30, 2018, is as follows:

Note 6. Refunded and Defeased Bonds

The Authority has entered into refunding transactions whereby refunding bonds have been issued to facilitate defeasance of the Authority's obligation with respect to certain bond issues. The proceeds of the refunding issues have been placed in irrevocable escrow accounts and invested in U.S. Treasury obligations that, together with interest earned thereon, will provide amounts sufficient for future payments of interest and principal on the issues being refunded. Refunded bonds and the related assets held in the trust are not included in the accompanying financial statements since the Authority has satisfied its obligations with respect thereto through consummation of the refunding transactions.

On September 1, 2017, the Series 1993A State Lease Revenue Trust Certificates were paid in full from escrowed funds.

On June 1, 2018, the Series 2008 bonds were called with funds held in escrow in the amount of \$26,030,000 and cash held with the South Dakota Investment Council in the amount of \$31,040,000. There was a gain from the defeasance of the Series 2008 bonds in the amount of \$432,063 as a result of the unamortized original issue premium.

Note 7. Commitments

The State Investment Council was investing \$50,359,113 of South Dakota Building Authority funds on June 30, 2018, of which \$44,237,324 represented unspent construction proceeds for bonded State agency construction projects.

Note 8. Arbitrage

Arbitrage as it applies to government financing refers to the ability of state governments to obtain funds at a tax-exempt rate of interest and to then invest those funds in investments which earn a higher yield, resulting in a profit to the issuer. The arbitrage rebate rules require that any earnings from the investment of the tax-exempt bond proceeds which exceed the yield on the bonds be remitted to the federal government every five years. Under the terms of the bond documents, the Authority will pay any obligations due to the federal government at the final computation date. Based on arbitrage rebate calculations as of June 30, 2018, no arbitrage rebate obligations exist.
